

## NASA Explorer Schools Spotlight Questionnaire

**Name of school:**

**Student population:**

**URL:**

**Teaching faculty population:**

**NASA Center:**

**What is the single most important concept about your school?**

**Please describe your school's location. For example, Regis is located in Denver, Colorado, perched upon a hill overlooking the city's center.**

**When was your school founded? Any historical facts to mention about your school?**

**Any special science and/or math programs that your school features (i.e. science fair)?**

**Does your school have any unique features or facilities? If so, how does that affect teaching and learning styles at school? For example, does your school have an open-floor concept (no walls)?**

**Has your school or have students in your school received any special awards or acknowledgement for math or science (besides receiving NES support)?**
